

GentsConcerts — Who We Are and What We Do

Section 1 — About GentsConcerts

GentsConcerts is Liberia's first dedicated online concert and events platform. Built and operated from Monrovia, Liberia, it serves as the central hub where music lovers discover events, buy tickets digitally, and where event organizers and artists list and promote their shows to thousands of people across Liberia. The platform was inspired by the gap in Liberia's entertainment industry where event promotion was scattered across WhatsApp groups and word of mouth with no central ticketing system.

Section 2 — What the platform does

For event attendees: Browse all upcoming concerts, shows, festivals and cultural events in Monrovia and across Liberia. Buy tickets securely online using MTN Mobile Money. Receive digital tickets with unique QR codes sent directly to your phone. Never miss an event again with notifications and a personal tickets dashboard.

For event organizers and artists: List your event on the platform in minutes by filling a simple form. Upload your event flyer and the system generates professional tickets using your flyer design. Set your own ticket prices and tiers including Regular, VIP and VVIP. Track your ticket sales and revenue in real time through a host dashboard. Receive your earnings via MTN Mobile Money within 3 to 5 business days after your event.

Section 3 — Why GentsConcerts matters for Liberia

Before GentsConcerts, buying event tickets in Liberia meant physically going to a location, sending mobile money to an unknown number on WhatsApp, or hoping someone saved you a ticket. There was no accountability, no digital record, no professional experience. GentsConcerts changes all of that by bringing Liberia's entertainment industry into the

digital age with a platform built specifically for Liberian artists, organizers, and music lovers.

Section 4 — Platform features summary

- Online event discovery
- Digital ticket purchasing via MTN Mobile Money
- QR code ticket verification at venue doors
- Host dashboard for organizers
- Commission free for the first 2 months after launch
- Launch date: August 1, 2026
- Available on: Web and mobile app
